

## A THOUSAND LIVES LOST.

## AN EARTHQUAKE IN PERSIA.

THE CITY OF KUCHAN COMPLETELY DESTROYED.

HUNDREDS OF PEOPLE CRUSHED UNDER FALLING WALLS—THE CONVISSION FOLLOWED BY A FLOOD, SWEEPING MANY OTHERS AWAY—SURVIVORS FLYING TO THE MOUNTAINS.

London, Nov. 21.—A special dispatch to "The Times" from Meshed brings details of an earthquake which occurred on Friday at Kuchan, in the northern part of the Province of Khorassan. The town was completely destroyed and the loss of life was immense. Great crevasses were opened in the earth, through which water flowed in torrents, causing the Atrak River to overflow its banks. The fertile region around the city was inundated, and the large gardens and extensive vineyards were swept out of existence.

The people of Kuchan had no chance to save anything. The shock was so severe that the largest houses in the town, including that of the Governor, were almost instantly toppled over, crushing hundreds of people to death. The surrounding country was also destroyed. At least 2,000 persons were carried away by the flood that downed the valley. It is not known yet what damage was done in the villages, but it is feared that many of the villages were destroyed. A short time after the earthquake the entire water supply of the town disappeared.

The people who were not injured fled, panic-stricken, to the Ali Dagh Mountains, leaving the injured to care for themselves as best they could.

The district is populous, and it is feared that it has everywhere suffered from the earthquake and flood.

Kuchan, of Khorassan, is, after Meshed, the chief city of Khorassan. It stands on the banks of the Atrak River, in the great valley between two beautiful ranges of Ali Dagh and Gushan. It is a beautiful valley, filled with fields of grain and orchards of peaches, apricots, mulberries and other fruit trees. The city itself is a fine example of Persian architecture, with its walls and minarets rising from a level plain. The city was a mere pile of ruins, the result of the earthquake which occurred on Friday. The city had been a mere pile of ruins, the result of the earthquake which occurred on Friday. ## THE PROGRAMME ANNOUNCED BY M. DUPUY TO THE DEPUTIES.

SEPARATION OF CHURCH AND STATE TO BE PROPOSED, MILITARY AND EDUCATIONAL LAWS TO REMAIN UNCHANGED, AND HYGIENIC AND OTHER REFORMS PROMISED.

Paris, Nov. 21.—At the opening of today's session of the Chamber of Deputies, M. Casimir Perier, President of the House, made a short speech congratulating France on the Franco-Russian alliance.

M. Dupuy, the Prime Minister, then read the Government programme. The Ministry, he said, would oppose the proposition for the separation of the Church and State, the country not having returned a majority in its favor. It would also oppose the re-establishment of the system of voting by district voting, and would oppose an inquiry into the income tax.

Continuing, M. Dupuy said that the Government would oppose Socialists and other collectivists, who are aspiring to substitute State tyranny for individual liberty. It would allow no change to be made in the educational or military laws, both of which were leading features of the Republic of which were leading features of the Republic of which were leading features of the Republic.

The Prime Minister promised that bills would be introduced providing for hygienic reforms, the care of abandoned children, the establishment of a reform of the police, the conversion of the 4 1/2 per cent. of the public debt into a 3 per cent. annuity, a reform of the judicial system, for a reorganization of the police so as to give solid guarantees to the public against the system of the police, and for the regulation of the manufacture, sale and transportation of explosives. Measures respecting the regulation of the manufacture, sale and transportation of explosives. Measures respecting the regulation of the manufacture, sale and transportation of explosives.

M. Jaures, Socialist, opened the discussion. The programme, he said, was a programme of the Government, and it was a programme of the Government, and it was a programme of the Government.

M. Jaures spoke for an hour. M. Dupuy replied to him and demanded a vote of confidence. It is expected that MM. Lockroy, Nauvet, Goblet and six other prominent Deputies will take part in Thursday's debate.

In concluding his speech on the Government programme, the Premier said that he owed to the Republic, which has raised her from her ruins, placed her again in the front ranks of nations, made her strong enough to speak of peace with sincerity and finally, after long isolation, acquainted with the world, to the never-to-be-forgotten fates of October.

The Premier's speech was received with great cheering.

A statement of the Government programme similar to that made by M. Dupuy in the Chamber of Deputies was made in the Senate by M. Eugene Guerry and was loudly applauded.

## ENGLISH MINISTERS IN COUNCIL.

## DIVISION OF THE PARISH COUNCILS BILL CONSIDERED—WOMAN SUFFRAGE IN THE COMMONS.

London, Nov. 21.—All the members of the Cabinet except John Morley, Chief Secretary for Ireland, were present today at a Ministerial Council, held for the purpose of considering the contested question of business in the House of Commons. A special feature of the meeting was the consideration of the scheme to divide the Parish Councils Bill. It is believed that the Ministers also discussed the proposition to procure a residence in Ireland for the Duke and Duchess of York.

The Government intends to postpone the consideration of the Poor-law clauses of the Parish Councils Bill until the next session of Parliament. In order to be able to prorogue Parliament on December 15 to reassemble in February.

## TO FORCE THE FIGHTING AT MELILLA.

## GENERAL MACIAS LIKELY TO BEGIN ACTIVE OPERATIONS TO-DAY.

Madrid, Nov. 21.—The Spanish Government continues its preparations to augment the force at Melilla and to carry on the war with the Rif tribesmen. Notwithstanding the arrival of the Sultan's brother at Melilla, General Macias has been ordered to begin an active campaign as soon as he receives the necessary reinforcements.

A dispatch from the General Directorate persists in his order to assume the supreme command of the Melilla expedition, but the Government has come to a decision in that matter.

It is expected that General Macias will advance tomorrow, with the object of driving the Rif tribesmen from the territory and reconquering the evacuated position in order to appease national sentiment before diplomatic negotiations begin.

The Sultan of Morocco has ordered the Anarchists to continue on friendly terms with the Spaniards at Ceuta, and appeals to the tribesmen to refrain from aggressive acts.

Mr. Rhodes adds that news of the capture of Lobengula is likely to be received at any moment.

London, Nov. 21.—A news agency in this city gives publicity to a report that another engagement has been fought between the British South Africa Company's forces and the Matabels under King Lobengula, and that the natives defeated the whites. The Government has received nothing to confirm this report.

In the House of Commons today Sydney Buxton, Parliamentary Secretary of the Colonial Office, said, in reply to a question, that Lobengula had been informed that his safe-conduct would be secured, and that he would be treated with consideration if he surrendered.

A dispatch from Town says that, although a raid of gold is visible near Bulawayo, lately the headquarters of Lobengula, he is now in possession of the gold mines of the British South Africa Company, no prospecting is allowed.

The forces at Fort Salisbury are being disbanded, and the breaking up of the force at the other forts is imminent. The remainder of the campaign against the Matabels will be carried out by the Matabels police force, which is now being organized.
